Disposable Subdermal Needle Electrodes portfolio

Technomed understands the importance of protecting the nervous system of patients during surgery.

Technomed's Disposable Subdermal Needle Electrodes portfolio is especially designed to minimize the risk of postoperative neurological effects on patients.

Designed with stainless steel needles and available in a range of lead wire lengths, Technomed's Subdermal Needle Electrodes give providers a variety of solutions for treating patients.

User Benefits

- Clear and reliable signal.
- Twisted pair models aid in noise reduction.
- Corkscrew, Curved and Hooked Needles are designed to stay securely in place during application.
- Smooth penetration and repositioning.
- Color coded lead wires for ease of use.
- Single use to avoid cross-patient contamination.

Disposable Subdermal Corkscrew Needle Electrodes

Material	Diameter	Wire Length	Box	Part Number
Stainless Steel	0.60 mm (23G)	1.2 m	24 pieces, 4 x 6 colors	TE/S50715-001
Stainless Steel	0.60 mm (23G)	2.0 m	24 pieces, 4 x 6 colors	TE/S50715-002
Stainless Steel	0.60 mm (23G)	2.5 m	24 pieces, 4 x 6 colors	TE/S50715-003
Stainless Steel	0.60 mm (23G)	1.5 m	24 pieces, 4 x 6 colors	TE/S50715-004
Stainless Steel	0.60 mm (23G)	1.2 m	24 pieces, 4 x 6 colors with protection cap	TE/S50715-001-C
Stainless Steel	0.60 mm (23G)	2.0 m	24 pieces, 4 x 6 colors with protection cap	TE/S50715-002-C
Stainless Steel	0.60 mm (23G)	2.5 m	24 pieces, 4 x 6 colors with protection cap	TE/S50715-003-C
Stainless Steel	0.60 mm (23G)	1.5 m	24 pieces, 4 x 6 colors with protection cap	TE/S50715-004-C

6 colors: red, green, black, white, yellow, blue
