Reusable EEG Cup Electrode Gold and Silver

Technomed understands the importance of a crystal clear signal, ease of use and electrode durability.

Technomed's Reusable EEG Cup Electrode Gold and Silver are designed to provide reliable signals and longtime ease of use.

These electrodes are designed for easy adjustment to patient contours to avoid electrode lift.

The connector is optimized for easy headbox insertion and extraction.

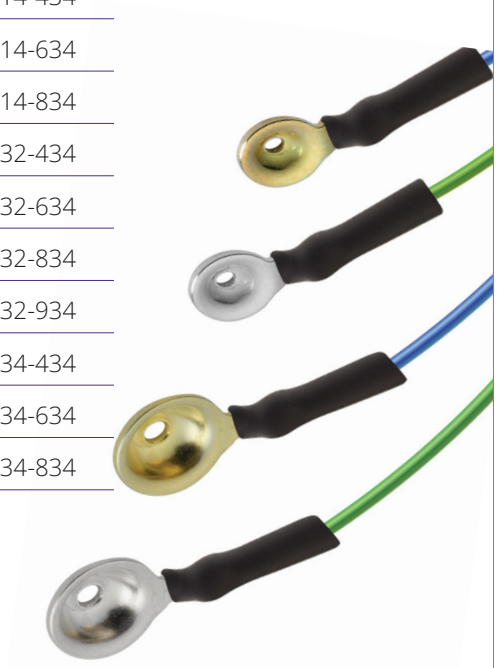

User Benefits

- Clear and reliable signal.
- Short cup-to-cable connection to reduce lift risk.
- Optimal patient comfort with low profile disk, soft and flexible anti-tangle lead wires.
- Optimized connector design for easy headbox insertion and extraction.
- Long electrode life with watertight design and Kevlar reinforced wires.
- Available in two different cup sizes.
